IT SERVICES PRESENTATION

GAETANO CERNIGLIA

Complete IT Solutions

+44 7954638340 cernigliagaetano@gmail.com linkedin.com/in/gaetano-cerniglia-a8491928

I provide complete, tailored IT services to businesses, professionals and entrepreneurs in Tenerife, the United Kingdom and Italy. With over 25 years of experience in software development and digital transformation, I help you modernise your business, automate your processes and reach new customers with bespoke solutions.

I have followed the evolution of software first-hand: I began with DOS programs and software for Italian municipalities, lived through the web boom building websites, applications and SaaS services, then the arrival of mobile apps, first for BlackBerry and then for Android and iOS, up to today's AI. I was CTO and co-founder of Eikony, a development agency that delivered high-profile projects such as three apps for the Vatican and represented technology companies at Expo Milano 2015. I have long worked on products used by millions, keeping quality and stability high, and I also have experience as a lecturer and tech communicator.

25+
years of experience in software development

Millions
of users on the products I work on

Full-stack
from web and mobile to artificial intelligence

IT · EN
support in Italian and English

WHY CHOOSE ME

Proven experience
Over 25 years in software development and IT solutions

Tailored solutions
Every project is customised to your specific needs

Multilingual support
Italian and English to serve international clients

Modern technologies
Always up to date with the latest technologies and industry trends

Full-stack approach
From design to implementation, from frontend to backend

Ongoing support
After-sales support and maintenance to ensure the success of your project

ARTIFICIAL INTELLIGENCE SOLUTIONS

Transform your business with artificial intelligence:

Virtual assistants and smart chatbots

For hotels, restaurants, medical clinics, beauty centres and any business that needs 24/7 customer service in multiple languages

WhatsApp Business chatbots

Automatic replies, enquiry management, product and service information for any sector

Custom voice assistants

For hotel receptions, tourist information points, shops

Automated booking systems

For freelancers (psychologists, lawyers, consultants), medical centres, beauty salons, personal trainers, wellness centres, photography studios

Automated analysis systems

Sentiment analysis of reviews, document classification, data extraction from invoices and contracts

AI recommendation systems

For e-commerce, restaurants (personalised menus), tourism services

CUSTOM DESKTOP SOFTWARE

Powerful desktop applications to manage every aspect of your business:

Complete management systems

For shops, restaurants, warehouses, professional firms, sports centres, language schools, garages

Invoicing and accounting software

With bank integration, automatic invoice sending, payment deadline tracking

Software for clinics and medical practices

Patient management, medical records, appointments, prescriptions

Custom CRM systems

Management of clients, leads, sales and contracts for estate agencies, tour operators, insurance agencies, car dealerships

Inventory and warehouse management

With barcodes, product tracking, low-stock alerts

Property management software

Management of properties, tenancy agreements and maintenance for property managers and estate agencies

MOBILE APPS (iOS and Android)

Native and cross-platform apps to reach your customers wherever they are:

Apps for hotels and accommodation

Digital check-in, room service, virtual concierge, tourist information, service bookings

Apps for freelancers

Appointment management, mobile invoicing, client communication for consultants, lawyers, architects, photographers

Fitness and wellness apps

Workout plans, class bookings, progress tracking for personal trainers and sports centres

Apps for schools and training centres

School–family communication, digital register, course management

Booking and reservation apps

For restaurants, hair salons, beauty centres, gyms, sports courts, vehicle hire

Food delivery and ordering apps

For restaurants, pizzerias, restaurant chains, with real-time order tracking

Tourism and guide apps

Virtual tours, audio guides, interactive maps, personalised itineraries

Event and ticketing apps

Ticket sales, event check-in, interactive programmes

WEBSITES AND PORTALS

A professional, high-performance online presence:

Corporate websites

To present your company, your services and your portfolio, multilingual for Tenerife's international market

Property portals

For agencies: advanced search, maps, virtual tours, listing management

Tourism portals

Integrated bookings, reviews, interactive maps for hotels, apartments, excursions

Booking portals

For restaurants, wellness centres, sports activities, professional services

Progressive Web Apps (PWA)

Web applications that work like mobile apps, installable and usable offline

Complete e-commerce

Online shops for retail, local crafts, regional products, dropshipping, with payment, shipping and tracking management

Marketplaces and multi-vendor platforms

Bringing together local sellers, services and professionals

E-learning platforms

Online courses, webinars, certifications for language schools and professional training

Blogs and online magazines

With a CMS, SEO optimisation, integrated newsletters

DIGITAL MARKETING AND SOCIAL MEDIA

Complete strategies to grow your business online:

Social media management

Facebook, Instagram, LinkedIn, TikTok: content creation, editorial calendar, community management

SEO and Google ranking

Website optimisation for local and industry keywords, link building

Content marketing

Blogs, videos, infographics and guides to attract customers

Google My Business

Profile optimisation, review management, local SEO

Online advertising campaigns

Google Ads, Facebook Ads, Instagram Ads with local targeting in Tenerife and internationally

Email marketing

Newsletters, automation, lead nurturing, abandoned cart recovery

Influencer marketing

Partnerships with local and national influencers

Analytics and reporting

ROI and KPI tracking, custom dashboards

ADDITIONAL TECHNOLOGY SERVICES

Systems integration
Connecting different software (CRM, accounting, e-commerce, warehouse)

APIs and web services
Development of interfaces for integration with external services

Databases and Big Data
Database design, data warehousing, advanced data analysis

Support and maintenance
Ongoing technical support, updates, bug fixing

Process automation (RPA)
Eliminating repetitive tasks, automatic report delivery, data synchronisation

Payment systems
Payment gateway integration (Stripe, PayPal, Redsys, Bizum) for e-commerce and bookings

Cloud solutions
Cloud migration (AWS, Azure, Google Cloud), hosting, backup

PORTFOLIO

Some of the projects I have worked on:

ITVX — App Store UK
TV streaming from ITV, one of Britain's largest broadcasting groups, currently being acquired by Sky
